## Datasheet

### Floodlight Brackets

Our floodlight brackets ensure your floodlight is securely mounted on the column. Each bracket has a top plate of 100mm square with a M10 zinc plated bolt, allowing full orientation of the floodlight. All brackets are supplied in a hot dip galvanised finish and are complete with the necessary bolts for mounting to the column.

#### STM1 Single floodlight mounting bracket

#### STM2 Twin floodlight mounting bracket

#### STM3 Triple floodlight mounting bracket

#### STM4 Four-way floodlight mounting bracket

Most columns of 8 metres and above have a column spigot; we will ensure that the brackets ordered will fit your columns. Where brackets are purchased alone for existing columns please indicate the diameter of the column spigot.

The four-way brackets are to mount two floodlights on top of the cross arm and two underneath using the same bolts. Fittings to fix at the same level above the cross arm facing North, South, East, West are also available, add suffix NSEW to STM4 reference. These brackets are only suitable for mounting flood lights up to 400W. For 1000W and above suffix with 'H' for heavy duty e.g STM2H89.

Code	Luminaire Type	Code	Luminaire Type
Single Floodlight Mounting Bracket		Triple Floodlight Mounting Bracket	
STM176	To over fit a column with a 60mm dia spigot/shaft	STM376	To over fit a column with a 60mm dia spigot/shaft
STM189	To over fit a column with a 76mm dia spigot/shaft	STM389	To over fit a column with a 76mm dia spigot/shaft
STM1114	To over fit a column with a 89 or 101mm dia spigot/shaft	STM3114	To over fit a column with a 89 or 101mm dia spigot/shaft
STM1140	To over fit a column with a 127mm dia spigot/shaft	STM3140	To over fit a column with a 127mm dia spigot/shaft
Twin Floodlight Mounting Bracket		Four Floodlight Mounting Bracket	
STM276	To over fit a column with a 60mm dia spigot/shaft	STM476	To over fit a column with a 60mm dia spigot/shaft
STM289	To over fit a column with a 76mm dia spigot/shaft	STM489	To over fit a column with a 76mm dia spigot/shaft
STM2114	To over fit a column with a 89 or 101mm dia spigot/shaft	STM4114	To over fit a column with a 89 or 101mm dia spigot/shaft
STM2140	To over fit a column with a 127mm dia spigot/shaft	STM4140	To over fit a column with a 127mm dia spigot/shaft
