

PROJECTS

Kingfisher Lighting x Arcluce

Discover Kingfisher

Since 1988, Kingfisher Lighting has been at the forefront of exterior lighting in the UK. We design and deliver innovative, high-quality solutions for projects of every scale, from city centres and commercial developments to sports venues and heritage landmarks.

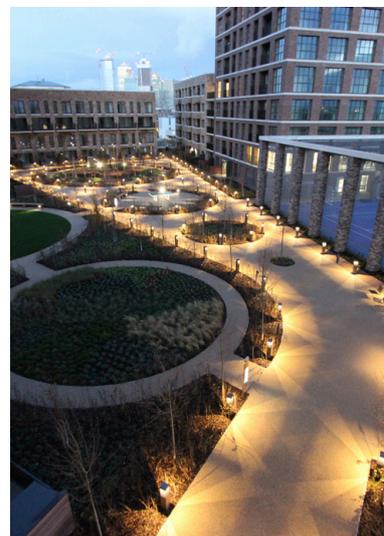

Our Portfolio

With over 20 years of partnership, Kingfisher and Arcluce have collaborated on many projects across the UK. From iconic sports venues like Anfield Stadium to residential developments and public realm spaces in major cities including London, Nottingham and beyond.

Guided by the philosophy “Designed for Humans,” Arcluce offers an exceptional product portfolio spanning architectural bollards, uplighters, downlighters, street luminaires and more, each crafted to enhance how people experience light in everyday spaces.

So, allow us to share a glimpse of the many projects we have brought to life together. In the pages ahead, you will find examples of how Kingfisher and Arcluce continue to illuminate communities across the UK with creativity, precision and purpose.

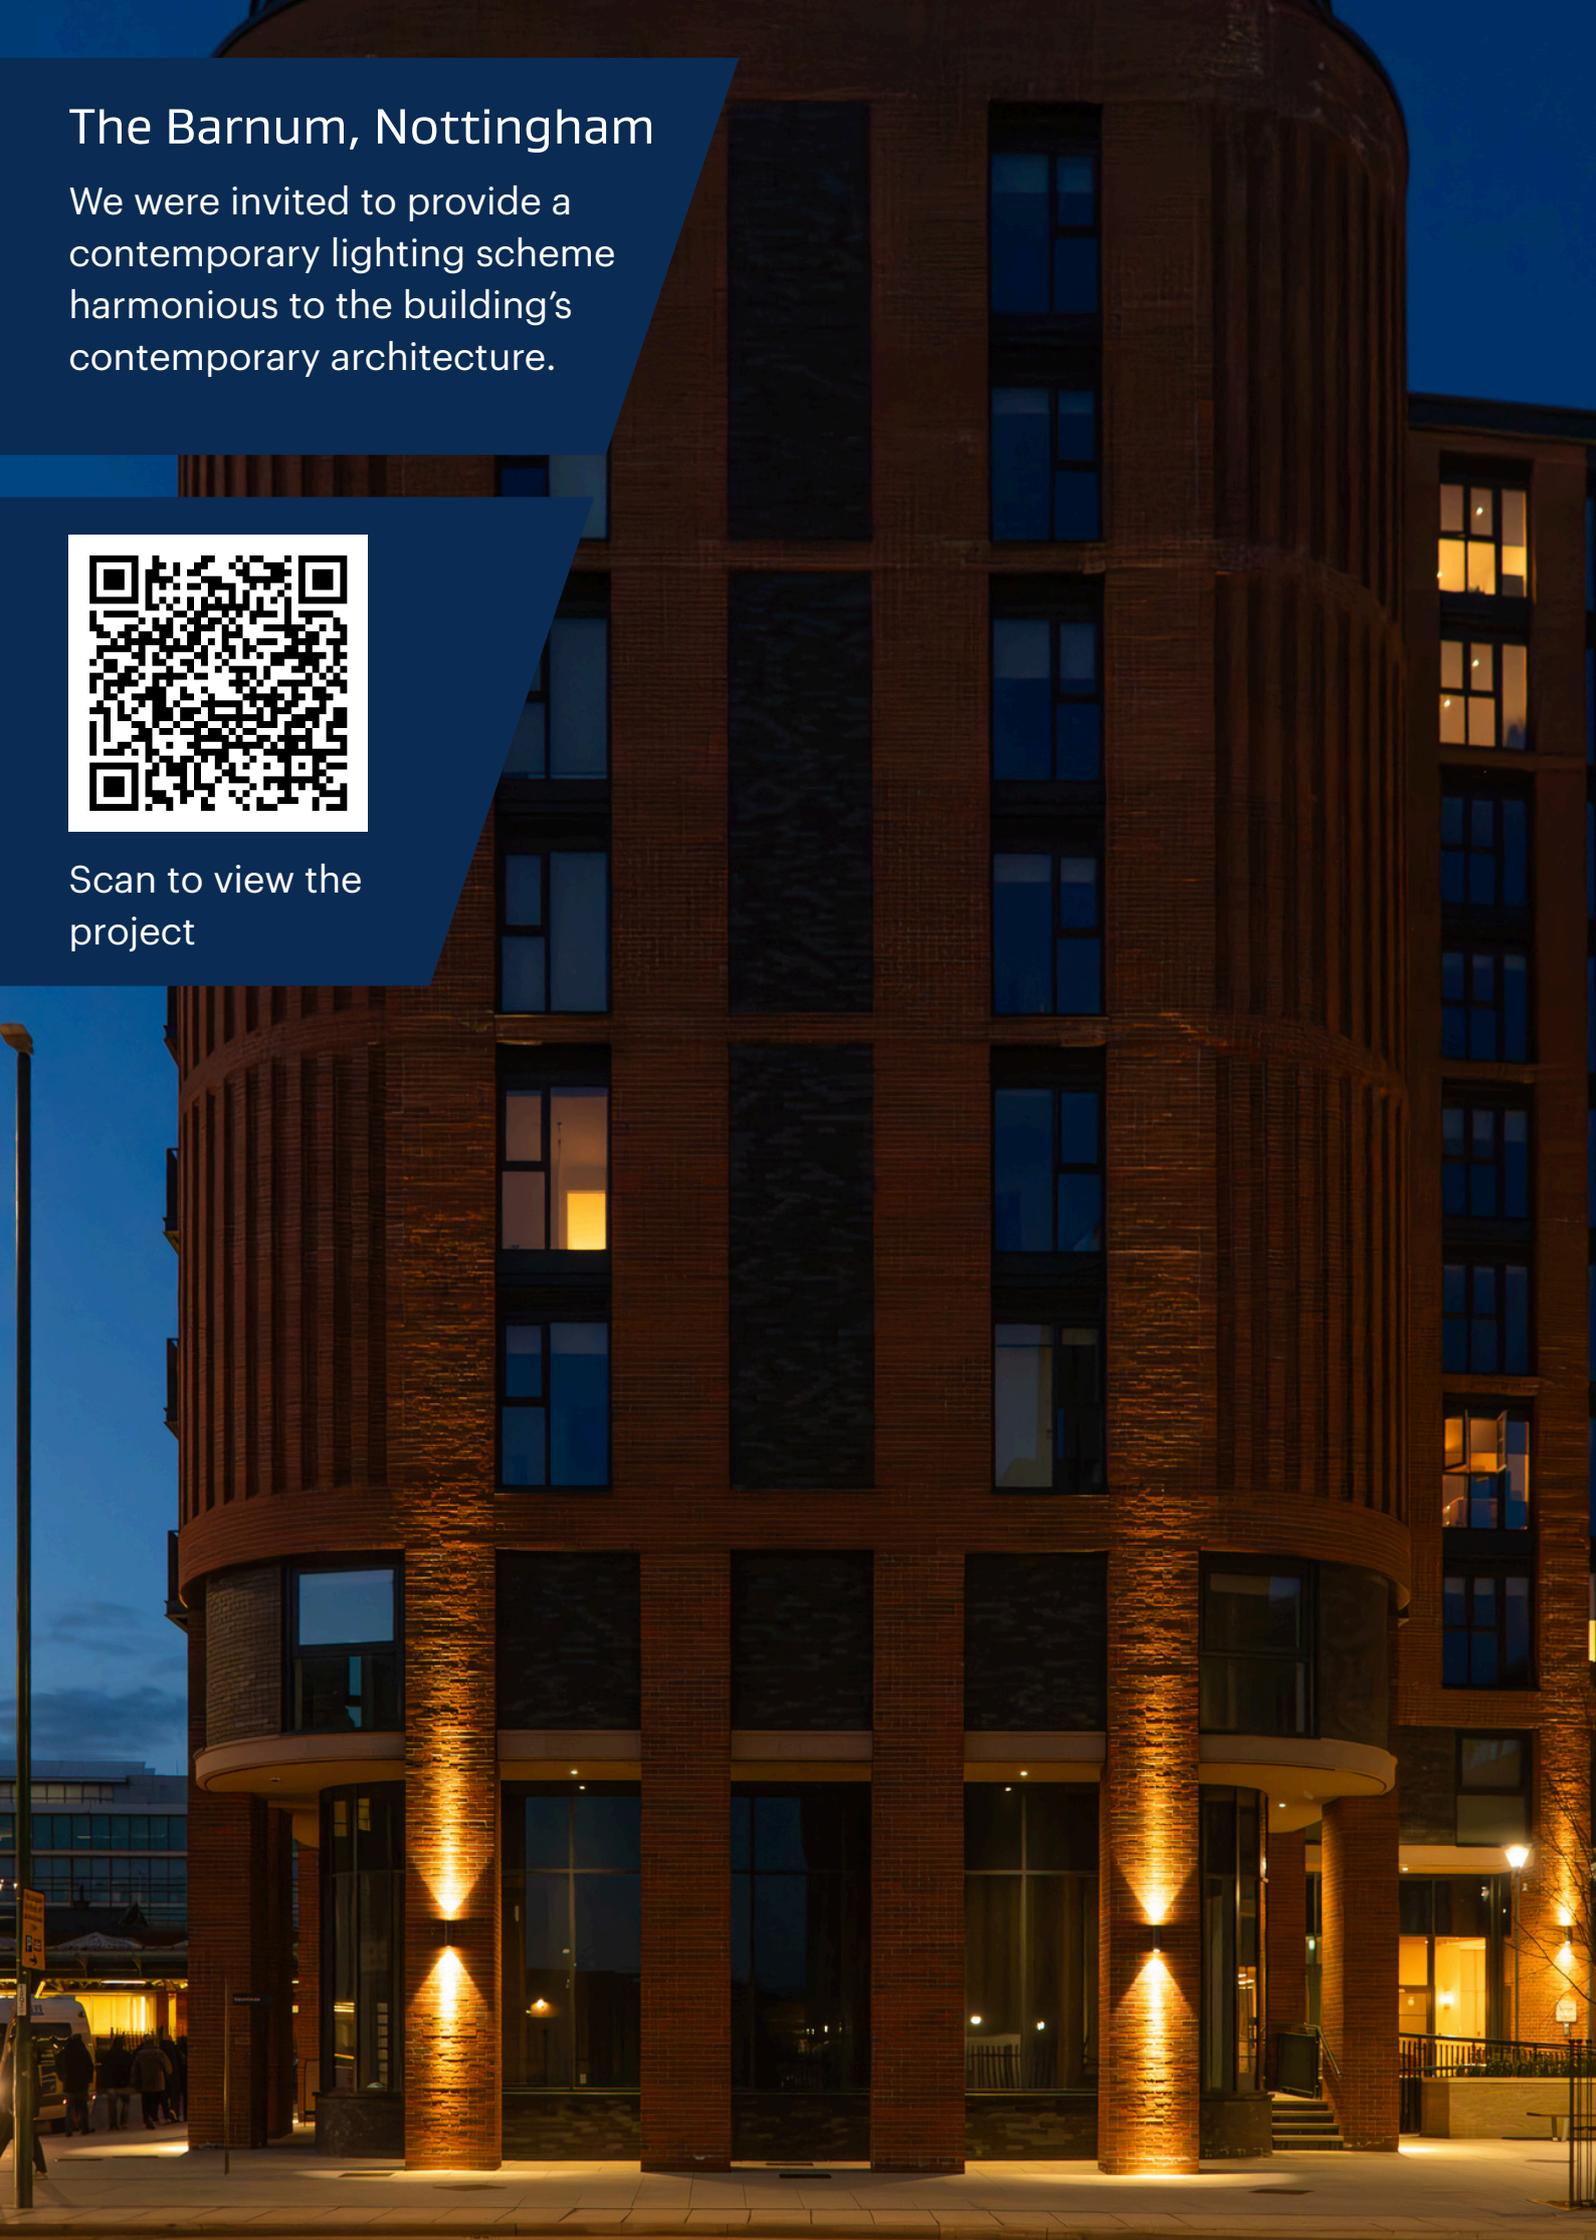

The Barnum, Nottingham

We were invited to provide a contemporary lighting scheme harmonious to the building's contemporary architecture.

Project Light, London

We selected a combination of low colour temperatures to create a sophisticated aesthetic that adheres with local guidelines.

Dundonald Links, Irvine

Near the coast, the site needed a modern lighting scheme to compliment the elegant accommodation and to withstand the harsh sea environment.

Hudson Quarter

Hudson Quarter required a low glare scheme with a focus on human-centricity to suit the busy residential and commercial space.
