THE COMPANY

Arcluce S.p.A. is an Italian company specialized in the design and manufacture of indoor and outdoor lighting solutions.

Founded in 1989, Arcluce works with architects, designers and design studios all over the world, promoting a culture of high quality and creativity that has always characterized its products.

The company has constantly grown over the years thanks to the continuous focus on research and development and an accurate control of the entire manufacturing process. From concept to product, Arcluce manages each step at its headquarters in San Zenone al Lambro, close to Milan.

The mix of specialized knowledge, innovation and attention to detail at the core of the company results in products of design, elegant and functional, able to satisfy the technical and aesthetic requirements of any project.

All Arcluce products are realized using the latest technologies and with cutting-edge components that guarantee reliability and long lasting efficiency.

SPECIALIZED KNOW-HOW
In-depth, highly specialized technical and design expertise, together with a great passion for the light sector and a long-standing tradition of excellence, make Arcluce a reliable and cutting-edge partner.

Arcluce

INNOVATION

30 years of activity, Arcluce has always been capable of renewing and innovating to respond to the technological revolutions within the sector and to meet the needs of an ever-changing market, creating always-new concepts and products.

CERTIFIED QUALITY

All Arcluce products undergo an accurate testing process to verify their compliance with the existing regulations and adherence to the highest standards of quality.

CONSULTING

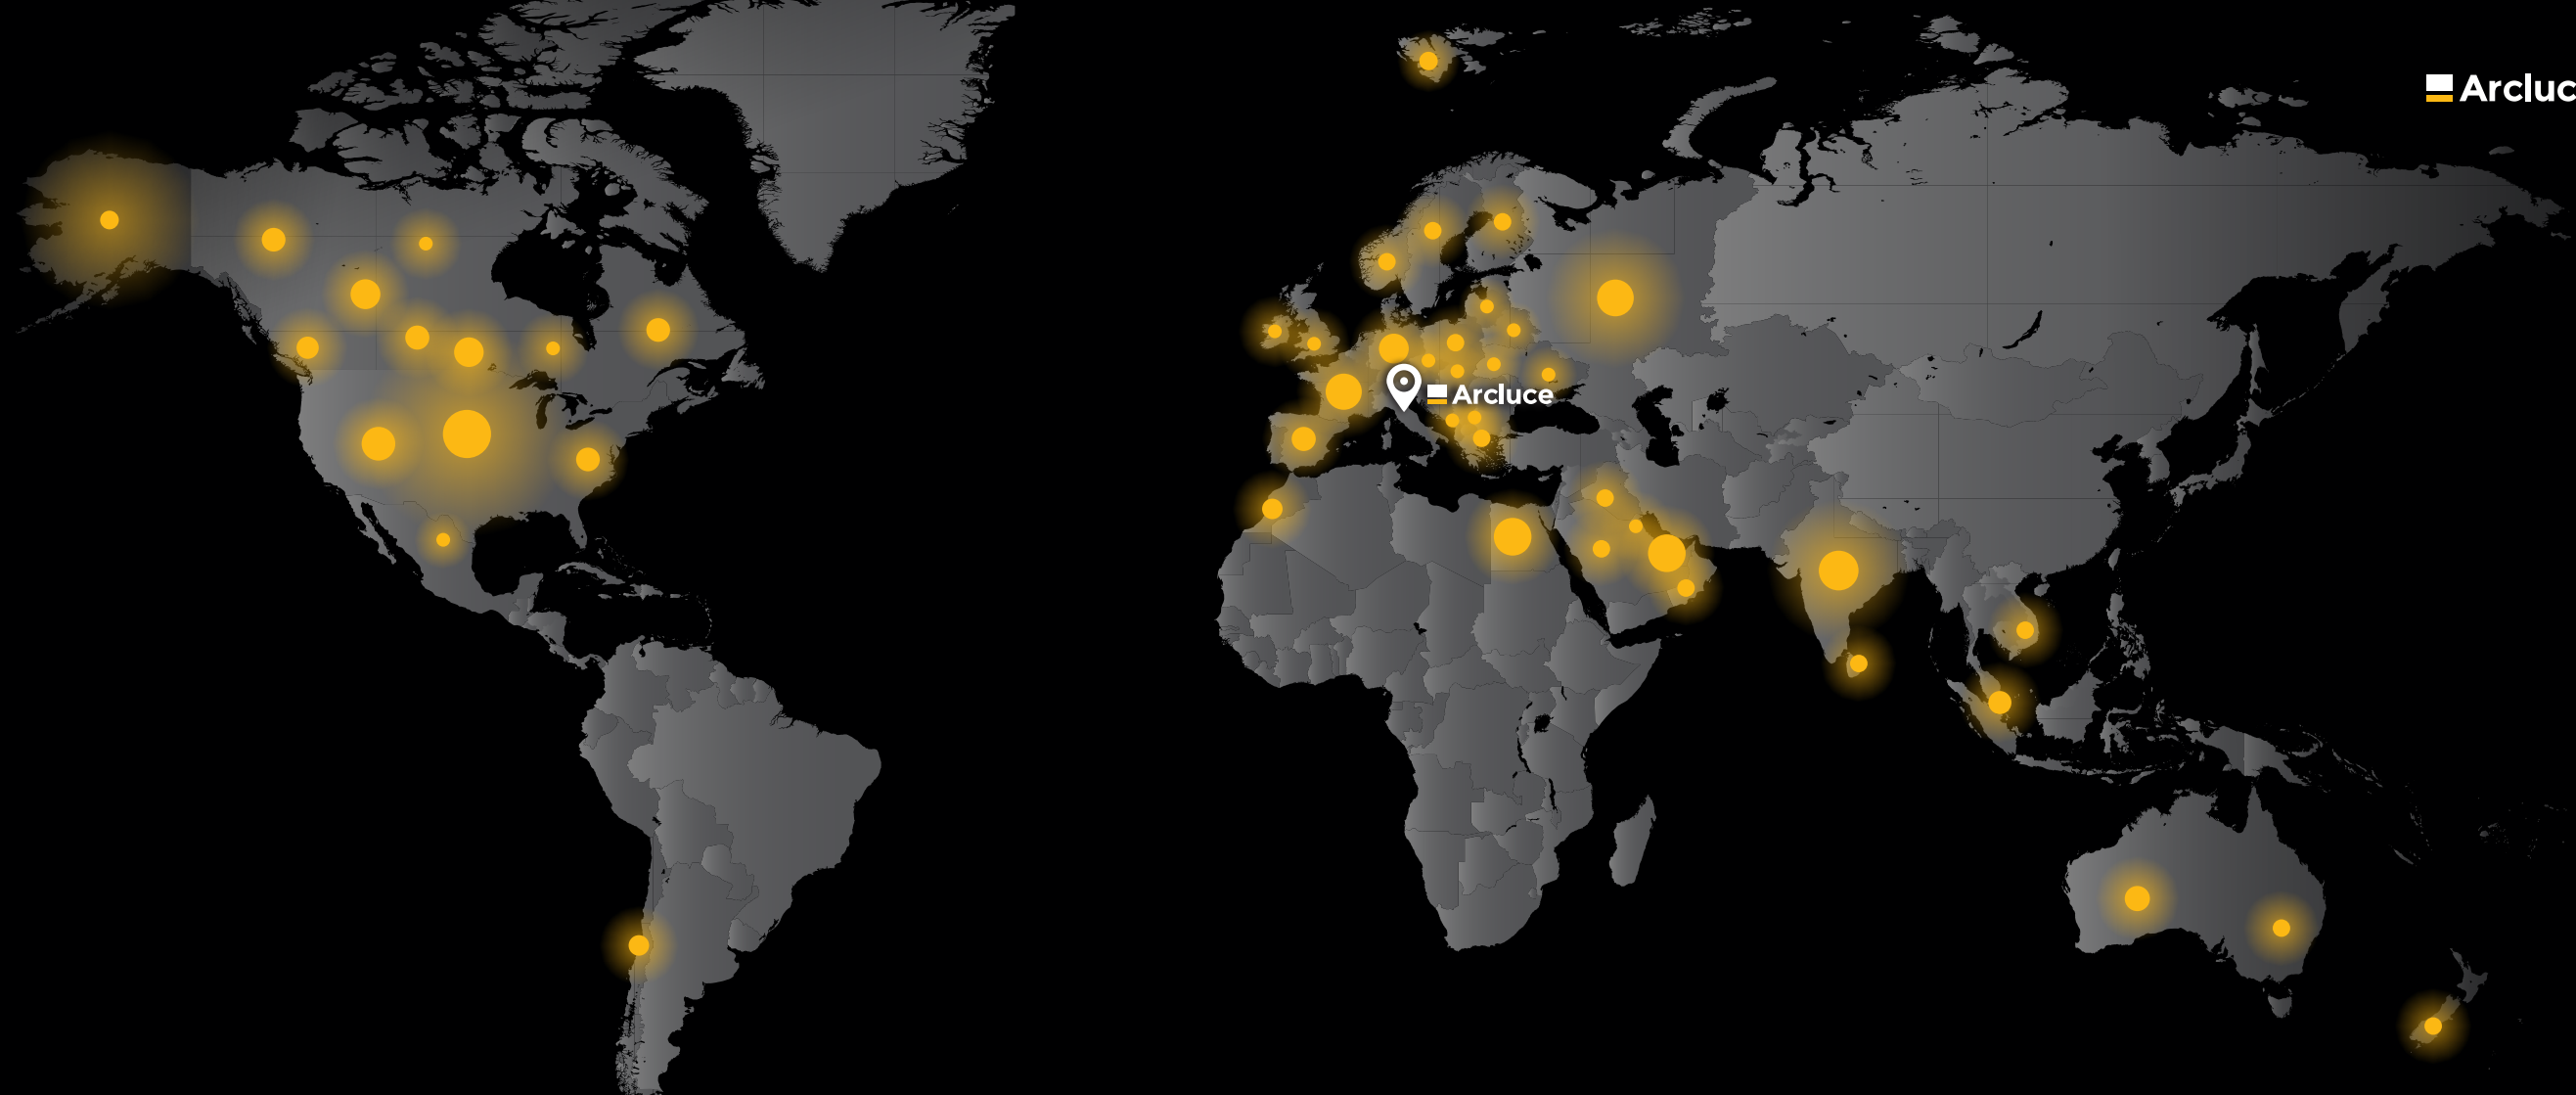

Arcluce offers a complete lighting consultancy service, supporting designers and architects in identifying the best solutions for the functional and environmental requirements of any project. Our technicians use Dialux to realize lighting projects and oversee all stages, from the initial concept to the installation.

La luce dà forma agli oggetti, crea significati e racconta quello che l'oscurità cela.

*La luce si amplifica, si riduce, si plasma in un eterno gioco di metamorfosi, dando così vita a fenomeni di straordinario fascino e naturale armonia.
Di fronte a tanta perfezione, l'uomo può solo tentare di emulare l'incantevole spettacolo che la natura crea.*

È per noi motivo di orgoglio far parte del processo di creazione di forme ed elementi che concorrano ad esaltare ed immortalare tanta bellezza.

Light gives shape to objects, creates meanings and shows us what darkness hides.

*The light is amplified, reduced and modeled in an eternal play of metamorphosis, giving life to phenomena of extraordinary charm and natural harmony.
Faced with such perfection, humans can only attempt to emulate the enchanting spectacle of nature.*

We are extremely proud to be part of the process of creating forms and elements that contribute to enhance and capture such beauty.
